

Employment Opportunities - 2024

Nature Saskatchewan has the following job opportunities. All positions are based in Regina, involve extensive travel in rural southern and central Saskatchewan, and **start May 6th, 2024**. General qualifications include a strong interest in conservation and environmental education, and studies in the fields of biology, ecology, geography, agriculture, or other related studies. Applicants should have strong communication, computer, and organizational skills; be self-motivated with the ability to work independently as well as part of a team; and hold a valid driver's license (vehicle will be provided). Positions are heavily field-based so applicants must be willing to do extended, overnight travel and work flexible hours, including outdoors in inclement conditions. Applicants should also be able to hike to field sites carrying field equipment. Please note on your resume if you have First Aid and CPR certification.

Applications for all postings must be sent via email and will be accepted **until 11:59 pm on February 15th, 2024**. We thank all applicants for their interest, however, only those selected for an interview will be contacted. Selected applicants will be contacted via email.

1) Habitat Stewardship Summer Assistant

Positions: *Two full-time summer positions for 16 weeks @ \$18/hour*. Summer assistants will assist in the delivery of our stewardship programs: Operation Burrowing Owl, Shrubs for Shrikes, Plovers on Shore and Stewards of Saskatchewan banner program. These programs promote conservation of prairie species at risk and their habitat.

Tasks and responsibilities: Assist program coordinators with program delivery; prepare communications and educational materials for distribution; assist in searches, monitoring and other conservation activities; contact and communicate with rural landholders regarding target species and the stewardship programs; educate targeted public audiences about species at risk on the prairies; and help create and deliver workshops and presentations to agricultural producers and the public (virtual and/or in-person).

Specific requirements and qualifications: Willingness to do extended overnight travel, camp, work evenings and weekends, and adapt to schedule and protocol changes on short notice. Should also possess basic wildlife and plant identification skills, computer skills, communication skills; and familiarity with GPS, maps, and rural Saskatchewan are assets.

Please email a cover letter and resume in **one PDF file** to Emily Putz at outreach@naturesask.ca by **11:59 pm, February 15th, 2024**. Include in the subject line "Summer Assistant Application" followed by your name.

2) Rare Plant Rescue Habitat Stewardship Summer Assistant
